

■ FULGOR ILLUMINATIONS

- ↘ REVOLUTIONARY ELECTRIC GRILL TECHNOLOGY combines unique Schott Ceran® ceramic glass with advanced radiant electric heating technology giving users a revolutionary grilling experience. The 1500W heating element draws only 12.75 Amps, and can connect to any standard 120V outlet.
- ↘ HEALTHY BENEFITS because there is no need for gas or charcoal. This makes cooking healthier and carcinogen free. Plus, temperature settings from 210°F to 700°F provide easy and consistent temperature, ensuring your food is cooked thoroughly.
- ↘ EASY CLEAN-UP with durable Schott Ceran® ceramic glass technology. Simply scrape any residual food or oil remaining on the glass surface into the removable drip tray with the included scraping tool. Makes clean up a breeze. Additional cleaning is as simple as wiping down the surface with a wet paper towel. No more messy charcoal and no more steel wool.
